TECHNICAL SKILLS

Languages
JavaScript, HTML, CSS, Node.js

Web Development
Full-Stack Development, Frontend Architecture, Backend Logic, Real-Time Web Apps, No-Code Platforms

Tools & Platforms
Power BI, Git, GitHub, VS Code, npm

GLOBAL READINESS

Japanese Language — JLPT Preparation (elementary conversational level)

CORE STRENGTHS

- Self-Directed Learning
- Problem Solving
- Git-Based Collaboration
- Data Visualization

EDUCATION SNAPSHOT

B.Tech, Electronics & Telecom.
MITS, Gwalior
2025 – Present

AYUSH PANDEY

Aspiring Full-Stack Web Developer

PROFILE SUMMARY

Electronics and Telecommunication Engineering undergraduate with hands-on full-stack web development experience, including a deployed real-time chat application and interactive JavaScript projects. Skilled in Git-based collaboration, data visualization with Power BI, and rapid self-directed learning. Actively building toward global career readiness through Japanese language study.

EDUCATION

Madhav Institute of Technology & Science (MITS), Gwalior
Bachelor of Technology (B.Tech), Electronics and Telecommunication Engineering | 2025 – Present

- Completing foundational coursework with an emphasis on engineering mathematics and core electronic systems.
- Balancing core academic curriculum with intensive self-paced software development training.

PROJECTS

Real-Time Chat Application — Full-Stack Project

- Architected and deployed a full-stack real-time chat application using Node.js for backend logic and HTML/CSS/JavaScript for a responsive user interface.
- Implemented persistent, bidirectional communication protocols enabling instantaneous message delivery across multiple active clients.
- Managed source control via Git; published the codebase on GitHub and shared engineering highlights on LinkedIn to engage with the developer community.

Interactive JavaScript Games (Tic-Tac-Toe & Rock-Paper-Scissors)

- Designed and built two interactive web-based games using vanilla JavaScript for dynamic DOM manipulation and game-state logic.
- Used clean, semantic HTML/CSS layouts to ensure smooth event-driven animations and full mobile/desktop responsiveness.
- Refactored conditional logic to eliminate runtime glitches, improving performance and gameplay reliability.

CERTIFICATIONS & BOOTCAMP TRAINING

- **MS Power BI Bootcamp Certificate —** Hands-on training in data visualization and business intelligence, Dept. of Electronics & Telecommunication Engineering, MITS, in collaboration with IETE Bhopal Centre (January 2026).
- **Full-Stack Web Development Course —** Ongoing training covering frontend design frameworks and backend databases.

ACHIEVEMENTS & CO-CURRICULAR ACTIVITIES

- **GFG-CodeRush —** Participated in the online programming contest by GeeksforGeeks Campus Body, MITS Gwalior (October 2025).
- **No Code Knockout —** Explored no-code platforms and built digital layouts in the website design competition, IETE Students' Forum, MITS-DU (August 2025).
- **URJA 2026 —** Engaged with energy sector experts on sustainable technologies at the National Level Renewable Energy Event, MITS Electrical Dept. & IEEE (March 2026).
- **Alumni Leadership Talk —** Attended "Leadership, Discipline & Service: Lessons from the Indian Army," ECE Dept., MITS & IETE Bhopal (March 2026).
- **Japanese Language Study —** Actively building elementary conversational skills for future global tech opportunities.
